

## Digital Hot Plates WH200D-3K

- > PID temperature control technology for accurate and reliable results
- > Suitable for complicated temperature control requirements
- > Bright LED screen can display both set value and actual temperature
- > Convenient temperature setting via on-touch control
- > Timer function for automatic heating up to 100 hours
- > Alarm signal output which can be applied to stop the operation of the hot plate and the other connected devices
- > External Pt100 temperature sensor connection for direct and precise control of the actual temperature

## Specifications

|  |                              |
|--|------------------------------|
| Order No.                                  | WH200D-3K                    |
| Display Mode                               | LED                          |
| Temperature Stability (°C)                 | ±2                           |
| Hot plate material                         | Aluminum coated with ceramic |
| Temperature Range in (°C)                  | 50~300                       |
| Solvent Temperature (Pt100 sensor) in (°C) | 40~300                       |
| Power (W)                                  | 1500                         |
| Dimensions (W x L in mm)                   | 400X300                      |
| Outer Dimensions (W x L x H mm)            | 470X410X70                   |
| Order No.                                  | 400112                       |
